Capabilities Overview: Boston, MA

PCB ASSEMBLY

STRATEGICALLY LOCATED in Boston's innovation hub, this facility offers services for a range of industries including medical, military, industrial and commercial. Our PCB assembly capabilities include:

- SMT (BGA, micro BGA)
- Thru-hole assembly
- Cable and harness
- Flex circuit
- Wave and selective wave soldering (leaded and lead free)
- Aqueous and no clean process
- Conformal coating

TESTING SERVICES are meticulously completed in-house for customer convenience and include AOI, X-ray, burn-in, hi-pot, flying probe, in-circuit and functional testing.

OTHER SERVICES

OVERVIEW

BOX BUILD capabilities in Boston give customers the benefit of end-to-end service. We are equipped to not only manufacture, but program, test, label and package box build and system integration according to project specifications. Each process is closely monitored and inspected to ensure the highest quality every time. Our global material sourcing and aggregated volume purchase enables cost competitiveness.

NEW PRODUCT INTRODUCTION allows our customers to launch projects into the marketplace timely, efficiently and with full confidence in our quality standards. Prototypes are processed and manufactured as production units. A seamless transition to East West's higher volume global facilities is available once production ramps.

CERTIFICATIONS at this location include ISO 9001:2015, ISO 13485:2016 and ITAR. These allow us to uniquely serve the medical device and military industries.

ABOUT EAST WEST

At East West, we strive to make incredible products for amazing companies. We focus on products that make the world a better place - cleaner, smarter, safer, healthier.

GLOBAL FOOTPRINT. With operations domestically, nearshore and offshore, we are able to ensure our customers' products are being produced in a geography that makes the most sense for any specific project. We strategically match your product with one of our factories that will save you time and money without sacrificing quality or ease of communications. Our global footprint allows customers to easily transition with the same supplier to higher volume facilities once production ramps.

U.S.-BASED SUPPORT. Our Atlanta, GA headquarters houses our engineering support team which allows us to easily recommend design improvements, enhance functionality and round out specifications that can not only improve the performance of your product, but reduce cost as well.

We also have both Boston and Atlanta-based customer support teams dedicated to keeping you informed during every step of the design and production process, ensuring you're able to get any questions or concerns addressed quickly.

VENDOR-MANAGED INVENTORY. East West's warehousing and VMI program are operated out of our warehouse in Decatur, G.A. Should you choose to take advantage of this program, we will either monitor your inventory using our own team, or gather stock information from you. We can help you make better buying decisions, including managing costs by reducing spikes and dips in inventory.
